

DESTRÄNKIS 2022

Red Wine

Destränkis 2022 is a young yet characterful wine, crafted by **Celler Aixelà i Alcait** from a blend dominated by **80% Garnacha** and complemented by **20% Cariñena**, sourced from vineyards grown on disaggregated **llicorella** soils. These slate-rich soils impart a distinct **mineral identity** and a **signature aromatic profile** typical of the **Priorat** region.

Fermentation takes place in **stainless steel tanks**, preserving the wine's fruit-driven freshness. The aging process involves a combination of **American, French, and Bulgarian oak barrels**, both new and used, which adds layers of complexity and nuance without overshadowing the grape's varietal expression.

The **Garnacha**, grown on these fractured slate soils, clearly conveys the aromas characteristic of the terroir, while the **Cariñena** contributes **structure and balance** to the final blend.
