- **87 points in Guía Peñín 2021**

Lezaun 0.0 Sulfitos is a young, organic, and 100% natural red wine made exclusively from biodynamically grown tempranillo grapes from the Zabalartea vineyard. Handpicked and carefully selected, this wine is crafted without any additives—including sulfites—making it a pure expression of both grape and terroir.

With medium to high depth, it displays a deep cherry red color with bluish highlights. The nose brings to mind red apple, Mediterranean scrubland, and sweet grapes. On the palate, it is silky with medium body, offering notes of licorice, cherry candy, and fresh red fruit.

An honest and well-balanced wine that stands out for its clean profile and nature-respecting production.
